

### 3300 SMART<sup>™</sup> Prep Concrete Cleaner

Smart<sup>™</sup> Concrete Cleaner is a specially designed cleaner based on a patented system that cleans all types of masonry surfaces. It is specially designed to remove rust stains caused by shallow well sprinkler systems and other all other causes. It will neutralize and dissolve calcium build up and is specially suited to remove all efflorescence from masonry, concrete pavers, block brick and more! Formulated with special cleaning agents that lift out grease and oils and wash them away in the rinse.

Smart<sup>™</sup> 3300 is a professional strength product that tackles the toughest projects: Industrial, Commercial, Marine and Residential.

Unsurpassed performance for cleaning and preparing masonry surfaces before applying concrete stains, paints or industrial coatings.

#### Suggested For:

- Cleaning and removing rust from concrete sidewalks and driveways.
- Dissolving and neutralizing efflorescence from masonry walls, brick pavers and concrete block.
- Cleaning and lifting out greasy oils and stains washing them away.
- Prepping all uncoated masonry floor and wall surfaces before painting.
- Excellent for removing stains and cleaning tile, glass and other hard surfaces.

Simply the  
**SMARTER**  
choice!

#### SMART<sup>™</sup> for you

Fast acting, high performance system saves you time.

#### SMART<sup>™</sup> for the environment

Biodegradable system is easy on our environment.

#### SMART<sup>™</sup> for any budget

No matter what your project: Commercial, Industrial, Marine or Residential, our system saves you time and money.

#### Professional Strength Industrial - Commercial - Residential

- Water Based
- Biodegradable - will not harm surrounding foliage
- Fast Acting formula attacks rust and efflorescence instantly.
- For all masonry surfaces, including pavers and brick.

## Smart™ 3300 Concrete Cleaner

Smart™ 3300 Concrete Cleaner and Rust Remover is based on an advanced patented system that effectively cleans both rust stains and white efflorescence deposits from all types of masonry surfaces. It can clean and brighten all concrete, stone, brick, block, tile, glass and other hard surfaces. It's special formulation also attacks grease and oily stains and lifts them away from the surface. Excellent for preparing all types of masonry surfaces before applying any paints or coatings.

**Fast Acting - No Fuming - Will Not Harm Foliage - Safe and Easy to Handle**  
**Effectively cleans all masonry surfaces. Removes efflorescence & rust stains.**

This unique and patented system will effectively neutralize all alkalis, remove rust stains and clean all masonry and concrete surfaces. It is a professional strength product that is suited for all commercial, residential, industrial and marine applications. It has an innovative cleaning system that attacks grease and oils and lifts them away from the surface rather than emulsifying them and pushing them deeper into the surface.

### APPLICATION

#### For Cleaning Concrete, Masonry, Brick & Masonry Pavers:

To use: In a plastic mixing bucket, add one (1) part Smart™ 3300 Concrete Cleaner to three (3) parts water.

**(Note: Always add Smart™ 3300 Concrete Cleaner into water not water into 3300).**

Use a wooden or plastic stirrer to mix. After mixing, sprinkle on surface with a watering can or using an all plastic low pressure garden style pump sprayer. You can also apply direct from a plastic bucket using a long handled scrub brush.

Let stand on the surface for 5-10 minutes, scrubbing if necessary, then rinse with clean water. Excellent for removing efflorescence (white powdery salts) that form and deposit on masonry. Safe for all brick pavers.

#### For Cleaning Tile, Grout and Other Hard Surfaces:

To use: Dilute one (1) part 3300 adding into fifteen (15) parts water. Apply evenly to the area to be cleaned. Scrub heavily soiled areas with a brush, let stand for 5 minutes, then rinse with clean water.

**Important: Carefully read all instructions and directions before use.**

**Do not mix this product with other chemicals.**

**Use only water to dilute. Do not apply to hot surfaces and never let Smart™ 3300 dry on the surface. Keep the surface wet at all times until Smart™ 3300 is rinsed off.**

This is a highly acidic product and prolonged and repeated contact will cause burns on skin and splashes will cause eye damage. Spills on bare skin or clothing can easily be rinsed with water without fear of immediate burning like a traditional acid type products, however, burning will occur on cuts and any open wounds.

### KEEP OUT OF REACH OF CHILDREN.

Use with adequate ventilation

WARNING: May cause skin irritation.

FIRST AID:

Skin - If irritation or redness occurs, rinse affected area with plenty of water.

Eyes - Flush with water for 15 minutes. Get prompt medical attention.

Internal - Drink several glasses of water.

Call physician immediately.

**Protect eyes and skin: Wear rubber gloves and eye protection**

**Storage & Disposal:** Store in a clean dry place. Protect from freezing. Dispose of all containers in accordance with state and local regulations. Do not reuse containers.
